

# PMG Advisory: 90-Day Budget

Client: Discover Me Radio / NETWORKX - Tanaka & Merquise

Advisor: Power Music Group - MYKEL T Brooks

## 90-Day Launch / Growth Budget

A practical 90-day budget should focus on product completion, marketing, creator acquisition, listener acquisition, events, and business infrastructure.

### Suggested Budget Range: \$15,000-\$50,000

This range gives NETWORKX a realistic path to launch, test acquisition channels, onboard artists, build listener demand, and support early events without overspending before the strongest growth channels are proven.

### Lean Launch Budget: \$15,000-\$20,000

- Marketing / Content / Ads: \$5,000-\$7,500. Short-form content, social ads, flyers, street team materials, influencer testing, local promotion, and launch campaigns.
- Artist & Ambassador Acquisition: \$2,000-\$4,000. Incentives, referral rewards, onboarding support, contest prizes, and founding artist campaigns.
- Live Events / Showcases: \$2,500-\$5,000. Venue deposits, sound, photography/video, promotion, security, staffing, and event materials.
- Tech / Infrastructure / Tools: \$2,000-\$3,500. Hosting, storage, monitoring, analytics tools, streaming costs, testing, app store costs, and product support.
- Legal / Business / Banking / Admin: \$1,500-\$3,000. Business banking, contracts, terms, payout structure, copyright guidance, and accounting setup.
- Creative Production: \$1,000-\$2,000. Graphics, promo videos, brand assets, artist interviews, live content, and campaign visuals.

### Stronger Growth Budget: \$30,000-\$50,000

This would allow stronger paid marketing, more frequent events, better content production, ambassador expansion into other states, stronger PR outreach, and faster creator onboarding.

### Budget Priorities

- Prove which marketing channels actually bring in real listeners.
- Prove which artist acquisition channels create consistent quality uploads.
- Build repeat engagement through radio programming, voting, livestreams, and events.
- Support the launch of the marketplace and preview-to-purchase flow.
- Create enough high-quality content and proof points to attract partners, studios, labels, venues, and local media.

The priority is not just spending money - it is proving which channels acquire listeners, convert artists, drive song purchases, and create repeat engagement.
